(a) Correlation
need correlation $r(x_c, x_p)$
avoidance
ambivalence
coupling ε
(b) Frequency
cycles per 100 time units
coupling ε
(c) Bifurcation, ambivalence
x_p at $y_c = 0$
ambivalence ε_{Am}
(d) Bifurcation, avoidance
x_p at $y_c = 0$
avoidance ε_{Av}
(e) Relative phase
ambivalence ε_{Am}
avoidance ε_{Av}
relative phase (deg)
steady state
escape
irregular
